

Product: „HistoSeal“ Hand Sealer for PE Bags
Cat.-No.: MA-0004

“HistoSeal” Hand Sealer for PE Bags

Type: 0004

Description and Features

Most modern sealing system for animal / organ filing in hermetic tight containers filled with formaline.
For guaranteed pollution free air in breathing zone of user.
Trays with I. D. numbers are stackable in an open rack storage system. Adjustable sealing temperature between 150 – 250°C.
It is not necessary to use a special rack for hanging the bags / containers. After an organ / animal has been removed from tray for dissecting, the same can be resealed with a new lid.
