

Product Specification

Product: Docking Station with extraction, single
Cat.-No.: MA-0970

Docking Station with extraction, single (stationary model for docking of mobile dissecting- / autopsy tables)

Type: 0970

Description

New dissecting concept consisting of a fixed docking column and the corresponding mobile dissecting or autopsy table.
The table is docked to the controllable air volume available in the docking station (single or double).
The system needs to be connected to an in-house exhaust system.

Features

The docking station includes:
2 x 230V splash proof safety sockets for connection of saws, etc.
2 x pair of guide rails for easy docking of the table
1 x flexible shower unit with 2 modes (spray and tap)
2 x lockable docking port for exhaust
2 x small drainage basin with integrated waste strainer
2 x inspection maintenance covers

Specifications
