

Product: Laminar Air Supply Unit 2400 with Daylight Source
Cat.-No.: MA-2016

Laminar Air Supply Unit with Light for all Autopsy Tables, Obduction Tables and Dissecting Tables incl. integrated cold light illumination and adjustable air regulating slots on both sides. For ceiling installation.

Type: 2016

Technical Description and Features

New and unique air supply system for all autopsy tables with adjustable downdraft air stream from 0 – 8°.

Housing installed direct to ceiling or detached from ceiling.

Air supply duct: 200mm dia. on top of unit

Integrated rectifier for daylight lamps.

Chromed parabolic mirrors for equal spreading of illumination onto autopsy table. Lamps easily changeable.

The air supplied by the central air condition system will be taken up by the air supply unit and by means of a laminar displacement flow through the outlet slots and lead to the autopsy table. A stable downdraft air stream is created.

Delivery including all installation materials – ready for connection.

Technical Data

Air volume:	appr. 750m ³ /h
Duct stud on top of unit:	200mm AD with 2 air connections tubes
Effective range:	appr. 3000mm
Pressure loss:	appr. 40 Pa
Daylight lamps:	4
Colour contrast acc. DIN 5035:	class 1 RA 95 Grad
Outlet area:	appr. 540cm ²
Width of slots:	appr. 10mm
Angle at air stream opening:	appr. 6-8° towards introversive
Weight:	appr. 95 kgs
Material:	st. steel 1.4301 / double polished
Dimensions:	2400(L) x 1000(W) x 400(H)mm
Weight:	200kgs

Country of Origin

Manufactured by MEDIS MT GmbH in Germany acc. to EN and German norms and the health & safety regulations of the EC and Germany!
