

## Product: Animal Autopsy Table with extraction for 2 persons Cat.-No.: MA-2069

### Animal Autopsy Table with extraction system

**For peninsular positioning (2 persons opposite to each other). Connection to in-house extraction system**

**Type: 2069**

#### Description

New animal autopsy table with downdraft extraction and possibility of connection to an image and document management system (option). For guaranteed pollution-free air in the breathing zone of the user.

Self-supporting stainless steel frame construction. Body parts and solid panels with double wall insulation. Height adjustable feet (50mm). Circumferential profile edge approx. 65mm.

3-part work surface (approx. 720 x 400mm) with finger holes including circumferential perforated edge (about 65mm wide) for optimal downdraft extraction of the gases (see photo).

Freely installable grossing table (350 x 350mm) with instrument rack and grossing board to be positioned at the work area (see photo next Page).

Inspection panels removable without tools. Open hollow spaces hygienically closed.

Flexible exhaust outlet (180mm OD) from the station leading to the ceiling.

#### Features

1 x sink approx. 400 x 300 x 250 (D) mm with a long nose water mixer. Sink radii min. 25mm (for easy cleaning).

1 x flexible retractable hand shower incl. mounting. 1600mm long with 3 functions (soft spray, full spray, spray jet) in the centre of work area positioned so that all points of the work surface can be reached.

1 x sprinkler system with 8 spray nozzles and valve to clean the plenum. Exhaust duct with dome cover (adjustable) in the centre of the plenum.

1 x crane track for optimal positioning the cadaver before dissection

MA-2069 Animal Autopsy Table with extraction and crane track for optimal cadaver positioning

MA-2069 Animal Autopsy Table

1 x paper towel dispenser

1 x double special ceiling illumination

3 x 230V power sockets

1 x data socket

## Technical Data

Material: stainless steel 1.4301 DIN EN double polished

Dimensions: 1800 (W) x 850 (D) x 800 (H = work area)mm

Weight: approx. 210 kgs

Exhaust volume: 0-800m<sup>3</sup>/h adjustable via the in-house extraction system

Exhaust pipe: flexible 180mm diameter up to the ceiling in a stainless steel rectangular channel.

Adjustable roof-shaped cover of the exhaust duct below the work area.

## Options

- electronic height adjustment from 800 – 1100mms

## Country of Origin

Manufactured by MEDIS MT GmbH in Germany acc. to EN and German norms and the health & safety regulations of the EC and Germany!

Paper towel dispenser

Grossing table with grossing board and instrument tray

Sink with 25mm radius. Left : valve for operation of sprinkler system below work area
